

FCC, Why should I have to listen to some morning show or talk radio program for an hour just to hear there 2 minutes worth of traffic. Local radio stations aren't trying to get me to listen to them because they have 2 minutes of traffic. All they care about is if I laugh at some DJ's stupid joke. Spend your time on policing these Shock Jocks and quite wasting your time on some radio station complaining that listeners don't want to listen to 58 minutes of BS to hear 2 min. worth of traffic. I can be at work by the time local stations stop telling jokes and tell me about the accidents I just pasted.

Thanks for listening to us, XM Nation Listeners.
